

I'm not robot!

Solutions and explanations Conceptual Integrated Science provides an engaging overview of physics, chemistry, earth science, astronomy, and biology. Hewitt’s engaging narrative emphasizes unifying concepts across physical and life sciences through a clear, friendly writing style, and fun, relevant examples that motivate students. The 3rd Edition deepens connections between the sciences with new Integrated Science spreads added at the end of each part. Modern references and new applications add relevance to students’ everyday lives. Enhanced End-of-Chapter problems engage students with interactive digital features in the Pearson eText and guide them with wrong-answer feedback, where and when they need it. The eText features Hewitt’s video tutorials that play inline, new Check Yourself from the text presented as a hide/reveal interactive feature, and multiple-choice quizzes at the end of each chapter. This text is correlated to the Next Generation Science Standards. Build a Foundation Across the Sciences. Share the publicationSave the publication to a stackLike to get better recommendationsThe publisher does not have the license to enable download For courses in integrated science and physical science. This package includes Mastering Physics. Emphasize concepts and enable students to connect ideas across the sciences The best-selling Conceptual Integrated Science provides an engaging overview of physics, chemistry, earth science, astronomy, and biology at a level appropriate for non-science students. Hewitt’s engaging narrative emphasizes unifying concepts across physical and life sciences through a clear, friendly writing style, and fun, relevant examples that motivate students. The 3rd Edition expands on its theme of integration and deepens connections between the sciences with new Integrated Science spreads added at the end of each part. Modern references in the updated Technology boxes and new contemporary applications add relevance and help to connect science with students’ everyday lives. Enhanced End-of-Chapter problems engage students with interactive digital features accessible in the Pearson eText and guide them with wrong-answer feedback, where and when they need it. The eText features Hewitt’s video tutorials that play inline, new Check Yourself from the text presented as a hide/reveal interactive feature, and multiple-choice quizzes at the end of each chapter. Reach every student by pairing this text with Mastering Physics Mastering™ is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Now providing a more interactive and seamlessly integrated experience, the eText provides embedded links to video tutorials and end-of-chapter questions within Mastering Physics. Learn more about Mastering Physics. Plus, give students anytime, anywhere access with Pearson eTextPearson eText is a simple-to-use, mobile-optimized, personalized reading experience available within Mastering Physics. It lets students highlight, take notes, and review key vocabulary all in one place — even when offline. Seamlessly integrated videos and other rich media engage students and give them access to the help they need, when they need it. Educators can easily share their own notes with students so they see the connection between their eText and what they learn in class. For instructors not using Mastering Physics, Pearson eText can also be adopted on its own as the main course material. Learn more about Pearson eText or contact your rep for purchase options. Preface is available for download in PDF format. This material is protected under all copyright laws, as they currently exist. Reach every student by pairing this text with Mastering Physics Mastering™ is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Now providing a more interactive and seamlessly integrated experience, the eText provides embedded links to video tutorials and end-of-chapter questions within Mastering Physics. Learn more about Mastering Physics. Help students build a foundation across the sciences with an integrated approach New and Revised - Integrated Science sections in every chapter, and at the end of each part, show how foundational ideas in science connect the different sciences. Added visuals accompany this feature, and end-of-chapter questions are tied to the sections and assignable within Mastering Physics.Expanded - Think Integrated Science questions at the end of each chapter tie in more closely with the chapter content. Make science relevant with contemporary applications Revised and Updated - Technology boxes present contemporary and relevant applications that connect science with students’ everyday lives. New topics include Genome Editing with CRISPR-Cas9, Wind Power and Global Winds, and Thermal Windows and Glassware. Revised - FYI marginal notes provide a more applied focus with information relevant to today’s students. Enhance student understanding using effective pedagogy The Insights marginal notes provide interesting facts and pedagogical aids.“Check Yourself” questions and answers throughout the text help students gauge their level of comprehension as they read. Students can also interact with Check Yourself questions in the eText and access the hide/reveal questions and answers.Boxed and Pedagogical features are all presented in a flexible format that allows professors to pick and choose content to use in their courses. Reach every student with Mastering Teach your course your way: Your course is unique. So whether you’d like to build your own auto-graded assignments, foster student engagement during class, or give students anytime, anywhere access, Mastering gives you the flexibility to easily create your course to fit your needs. With Learning Catalytics, you’ll hear from every student when it matters most. You pose a variety of questions that help students recall ideas, apply concepts, and develop critical-thinking skills. Your students respond using their own smartphones, tablets, or laptops. You can monitor responses with real-time analytics and find out what your students do — and don’t — understand. Then, you can adjust your teaching accordingly, and even facilitate peer-to-peer learning, helping students stay motivated and engaged. Learning Catalytics includes prebuilt questions for topics in Conceptual Integrated Science, 3rd Edition.New - Pearson eText is a simple-to-use, mobile-optimized, personalized reading experience available within Mastering. It allows students to easily highlight, take notes, and review key vocabulary all in one place—even when offline. Seamlessly integrated videos and other rich media engage students and give them access to the help they need, when they need it. Educators can easily share their own notes with students so they see the connection between their eText and what they learn in class. Check out the preface for a complete list of features and what’s new in this edition. 1. About Science Part I. Physics 2. Describing Motion 3. Newton’s Laws of Motion 4. Momentum and Energy 5. Gravity 6. Heat 7. Electricity and Magnetism 8. Waves-Sound and Light Part II. Chemistry 9. Atoms and the Periodic Table 10. The Atomic Nucleus and Radioactivity 11. Investigating Matter 12. Chemical Bonds and Mixtures 13. Chemical Reactions 14. Organic Chemistry Part III. Biology 15. The Basic Unit of Life–The Cell 16. Genetics 17. The Evolution of Life 18. Diversity of Life on Earth 19. Human Biology I–Control and Development 20. Human Biology II–Care and Maintenance 21. Ecology Part IV. Earth Science 22. Plate Tectonics: The Earth System 23. Rocks and Minerals 24. Earth’s Surface–Land and Water 25. Surface Processes 26. Weather and Climate 27. Environmental Geology Part V. Astronomy 27. The Solar System 28. The Universe APPENDIX A: On Measurement and Unit Conversion APPENDIX B: Linear and Rotational Motion APPENDIX C: More on Vectors APPENDIX D: Exponential Growth and Doubling Time APPENDIX E: Physics of Fluids APPENDIX F: Chemical Equilibrium Format On-line Supplement ISBN-13: 9780135479650 Availability Important: To use the test banks below, you must download the TestGen software from the TestGen website. If you need help getting started, read the tutorials on the TestGen site.
